

## DIRECTIONS

Massachusetts Medical Society  
860 Winter Street  
Waltham, MA

### Directions

- **From Boston**

Travel west on the Massachusetts Turnpike/I-90 to Exit 15. Keep right beyond the tollbooth and follow the signs for I-95/128 North. Follow 95/128 North for approximately two miles to Exit 27A-27B (Winter Street). Off exit ramp, keep right and go over 128 and follow Winter Street for approximately one mile. You'll pass the reservoir on your right, and the road will curve sharply to the right. Immediately after the curve, you'll see the Waltham Woods sign on the left. See below for further directions.

- **From Points West**

Travel east on the Massachusetts Turnpike/I-90 to Exit 14. Keep left beyond the tollbooth and follow the signs for I-95/128 North. Follow 95/128 North for approximately two miles to Exit 27A-27B (Winter Street). Off exit ramp, keep right and go over 128 and follow Winter Street for approximately one mile. You'll pass the reservoir on your right, and the road will curve sharply to the right. Immediately after the curve, you'll see the Waltham Woods sign on the left. See below for further directions.

- **From Points North**

Travel south on Route 128/I-95 to Exit 27B (Winter Street). Off exit ramp, keep right and follow Winter Street for approximately one mile. You'll pass the reservoir on your right, and the road will curve sharply to the right. Immediately after the curve, you'll see the Waltham Woods sign on the left. See below for further directions.

- **From Points South**

Travel north on Route 128/I-95 to Exit 27A-27B (Winter Street). Off exit ramp, keep right and go over 128 and follow Winter Street for approximately one mile. You'll pass the reservoir on your right, and the road will curve sharply to the right. Immediately after the curve, you'll see the Waltham Woods sign on the left. See below for further directions.

### At Waltham Woods

Take a left at the Waltham Woods sign on Winter Street, and follow the road up the hill (approximately one-third mile). MMS Headquarters will be directly in front of you. (Note that parking and the main entrance are at the back of the building.)

11:00 a.m.–Noon	Dermoscopy Workshop III
Noon–12:15 p.m.	Q&A and Closing Remarks
12:15 p.m.	Pick-up Lunch Adjourn

#### SPEAKER

**Dr. Ashfaq A. Marghoob** is a dermatologist specializing in the diagnosis and treatment of cancers of the skin. He is the director of the Memorial Sloan-Kettering regional skin cancer clinic located in Hauppauge, Long Island. In addition to consulting and treating patients in Hauppauge, he also sees patients at the MSKCC outpatient facility in Manhattan. Although providing the best care possible for patients remains his primary goal, he also remains committed to education and clinical research. Dr. Marghoob's belief is that improved efforts in educating physicians and the public regarding the importance of early skin cancer detection will translate into lives saved. He continues to be engaged in clinical research and he has published numerous papers on topics related to skin cancer with an emphasis on melanoma, atypical/dysplastic nevi, and congenital melanocytic nevi. Much of his research interests are focused on early recognition of skin cancer by utilizing imaging instruments such as photography, dermoscopy, and confocal laser microscopy. In fact, Dr. Marghoob is one of the world's leading authorities on dermoscopy. Much of his research focuses on the study of melanocytic neoplasms of the skin including acquired nevi, congenital nevi, and melanoma with a focus on defining and identifying populations at increased risk for melanoma. He continuously explores the importance and significance of the clinical and dermoscopic morphology of lesions. Although his research efforts are primarily focused on discovering ways to improve clinician diagnostic accuracy, he is also involved in research aimed at deciphering the natural biology of nevi and melanoma with a particular interest in nevogenesis and melanomagenesis. Dr. Marghoob frequently lectures on all of the aforementioned topics both nationally and internationally.

#### Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through joint providership of the Massachusetts Medical Society and the New England Dermatological Society. The Massachusetts Medical Society is accredited by the ACCME to provide continuing medical education for physicians.

#### AMA Credit Designation Statement

The Massachusetts Medical Society designates this live activity for a maximum of 3.50 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This activity meets the criteria of the Massachusetts Board of Registration in Medicine for Risk Management Study.

**As a result of participating in this activity, learners will be able to:**

- Review the dermoscopy of common benign skin lesions
- Recognize and identify major dermoscopic findings in pigmented lesions including malignant melanoma
- Differentiate between skin cancer and the most common dermoscopic mimics
